

Kunal Gupta

Noida, Uttar Pradesh, India | +91-9896615093 | k24.kunal@yahoo.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Cloud and DevOps Engineer with 2+ years of experience managing cloud infrastructure, automating deployments, and maintaining CI/CD pipelines. Hands-on experience with AWS services including EC2, S3, IAM, VPC, CloudWatch. Skilled in Infrastructure as Code, Linux administration, and troubleshooting cloud environments to ensure high availability, scalability, and reliability.

TECHNICAL SKILLS

- **Cloud Platforms:** AWS (EC2, S3, IAM, VPC, CloudWatch), GCP
- **Infrastructure as Code:** Terraform, ARM Templates
- **CI/CD Tools:** Jenkins, GitHub Actions, Azure DevOps
- **Containers:** Docker, Kubernetes
- **Monitoring:** AWS CloudWatch, Grafana
- **Programming:** Shell Scripting, Python
- **Version Control:** Git, GitHub
- **Build Tools:** Maven, Node.js, Go Build System
- **Operating Systems:** Linux
- **Networking:** DNS, Subnets, Security Groups, VPC Networking

PROFESSIONAL EXPERIENCE

DevOps Engineer	Tech Mahindra, Noida, India	Aug 2023 – Present
------------------------	-----------------------------	--------------------

- Managed CI/CD pipelines using Jenkins and GitHub Actions across DEV, ST, PERF, PROD environments.
- Provisioned and maintained AWS infrastructure including EC2, storage, and networking components.
- Implemented Infrastructure as Code using Terraform for consistent environment provisioning.
- Monitored systems using CloudWatch and Grafana, improving issue detection.
- Troubleshoot deployment failures and infrastructure issues, improving system reliability.
- Containerized applications using Docker and supported container-based deployments.
- Automated workflows using shell scripting to reduce manual effort.
- Integrated SonarQube into pipelines for code quality checks.

PROJECTS

CI/CD Pipeline Deployment using Jenkins, Docker, and AWS	GitHub
---	--------

Built an automated CI/CD pipeline using Jenkins, Maven, and Docker to deploy a Java application on AWS EC2.

DevOps Basics Spring Boot Web Application	GitHub
--	--------

Developed a Spring Boot application demonstrating DevOps concepts, CI/CD lifecycle, and monitoring endpoints.

Reverse Proxy CI/CD Multi-Service Architecture	GitHub
---	--------

Designed a multi-service architecture using Docker Compose with Nginx reverse proxy and automated CI/CD deployment on AWS.

EDUCATION

Bachelor of Technology (B.Tech)	SRM University, Sonapat, Haryana	2019 – 2023
---------------------------------	----------------------------------	-------------

CERTIFICATIONS

- AWS Certified Solutions Architect – Associate
- Google Cloud Computing Foundations
- Introduction to Generative AI
